LES DÉGLINGOS®

Created by Mr. Lauren from France, he was inspired by the summer of

2005, and found the designer of Stephanie, shaping his thoughts, using a variety of colors and fabrics and maintaining a hand-crafted prototype for a year. Create a unique **Déglingos**. The product launched in May 2007, in many countries, has a good response at the same time. It has spread to the whole of Europe with magical power. It is now sold in more than 17 countries in the world, and is well received by children in every country. favorite. Baby circles rock! **Déglingos** comes from the French proverb deglingue, which is crumbling and almost broken, because every finished product is made up of a variety of different touches and colors of cloth, bright colors, handmade fabrics, and arrogance. No gimmicks, cute and exaggerated design, can give people a visual and tactile enjoyment. They are made of woven fabric, do not shed hair, fade, and even if you scratch it, bite it will not cause harm to the human body? Full of rock-and-roll animal shapes, each animal comes from French design, both unique and eye-catching. In addition to baby love, it is also a fashion item that girls, light mature women and moms love!
